

KARL MATHIAS MOBERG

Cloud Consultant, SRE and Developer

PROFILE

Coming from a background in operations, Karl has since 2010, experience with the architecture, development and implementation of cloud and on-premise infrastructure in AWS and Microsoft Azure. He is a AWS Certified Solutions Architect Associate as well as AWS Certified Developer and has working experience with Linux and Windows Servers, and has over the last two years, been functioning as the 3rd level technical support for some of Norway's largest insurance companies.

Automation, CI/CD and infrastructure as code are important principles that Karl adheres to in order to create a uniform and reproducible infrastructure quickly and easily. He works with tools such as Git, Terraform, Bash and

Python in addition to traditional programming languages such as Java, C#/.net, PHP and (No)SQL.

Karl lives on the bleeding edge of technology and is always keeping himself updated on new technology and makes it a big point to share knowledge with both colleagues and other interested people.
